Description

This article contains instruction on how to restrict access to the AhsayCBS web console by IP address.

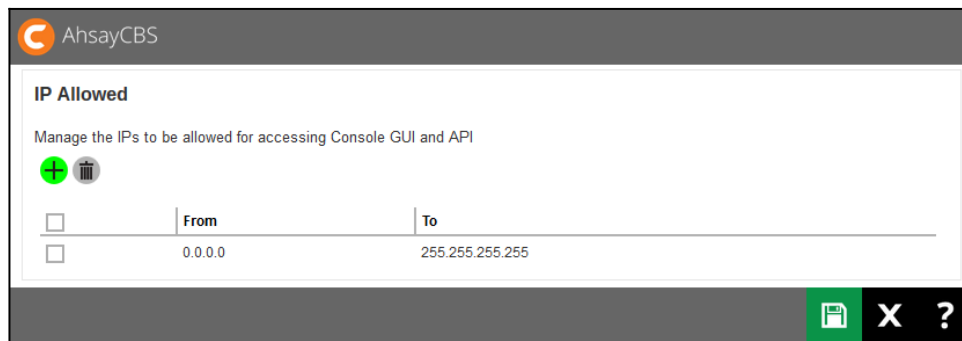

Steps

Refer to the following steps to create IP allowed range to allow access to the AhsayCBS web console only from specific IP address range(s):

1. Login to the AhsayCBS web console.
2. Select **Advanced** under **System Settings** .

3. Select the **Runtime Options** tab.
4. Edit the default IP allowed range by clicking on the corresponding IP range, or create a new IP allowed range by clicking **Create** (circular + button), under **IP Allowed** .

Note : By default, an IP allowed range from 0.0.0.0 to 255.255.255 is created to allow access to the web console from all IP address.

5. Enter the corresponding IP range under **IP Allowed** .

For example, enter **From** 192.168.1.1 **To** 192.168.1.255 to allow access to only computer connecting from the 192.168.1.x network to access the web console.

6. Click **OK** , then **Save** afterward to save the changes.

Note : If required, you can configure more than one IP allowed ranges.

Keywords

ip, restriction, restrict
