

FAQ: For backup set with multiple Backup Destinations, how to choose which destination to backup to?

You can choose which destination to backup to within the backup client user interface.

1. In the AhsayOBM / ACB user interface, select the 'Backup' tile, then the corresponding backup set

2. Click on 'Show advanced option'

3. Select the destinations that you would like to backup to, then click 'Backup' to start the backup job.

Choose Your Backup Options

Backup Set

Backup set type
File

In-File Delta type

- ☐ Full
☐ Differential
☒ Incremental

Destinations

- ☐  OBS (Host: 10.1.0.10:8080)
☒  Destination Pool
☒  GoogleDrive Storage (Google Account: Ahsay Systems Corporation)

Retention Policy

- ☒ Run Retention Policy after backup

[Hide advanced option](#)

****Note:****

You can only choose which destination to backup to for a manually started backup job.

Scheduled backup job will always backup to all backup destinations configured for the backup set.
