OS: Windows

ATTENTION 1st January, 2022: v7 officially End-of-Life [\[details\]](#)

Problem Description

When performing a MS Windows System or System State backup, the following error message is displayed on the backup client interface, or in the backup report:

No.	Type	Timestamp	Log
*
*	info	...	[...] "The operation ended before completion."
*	info	...	[...] "Backup location is running low on space. Free up space or reduce size of data getting backed up."
*	erro	YYYY/MM/DD hh:mm:ss	[...] "[Error]"
*

Cause

The messages suggest that the temporary location for the backup has insufficient disk space for the MS Windows system or system state backup.

Resolution

To resolve the issue, modify the temporary location for the backup to another volume with sufficient disk space.
