[V8] FAQ: How to modify the Java heap size of AhsayCBS?

Article ID : 8003
Reviewed : 2019-01-15

Product Version:
AhsayCBS: 8.1 to 8.x
OS: All platforms

Description

This article outlines the steps required to modify the Java heap size of AhsayCBS.

Steps

To modify the Java heap size of AhsayCBS:

1. Login to the Ahsay Cloud Backup Suite web management console.

2. Select **System Settings**, **Advanced**, then **Runtime Options**.

3. Enter the new heap size setting in the Heap Size text box, then press **Save**.

4. Restart the AhsayOBS service afterward.

Note:
Single backup sets rebuild and other system routine processes (e.g. retention policy job, CRC … etc.)
are now performed by the client application.

Keywords

java, heap, memory, RAM, size
