FAQ: Can I backup to multiple Backup Destinations with a single backup set?
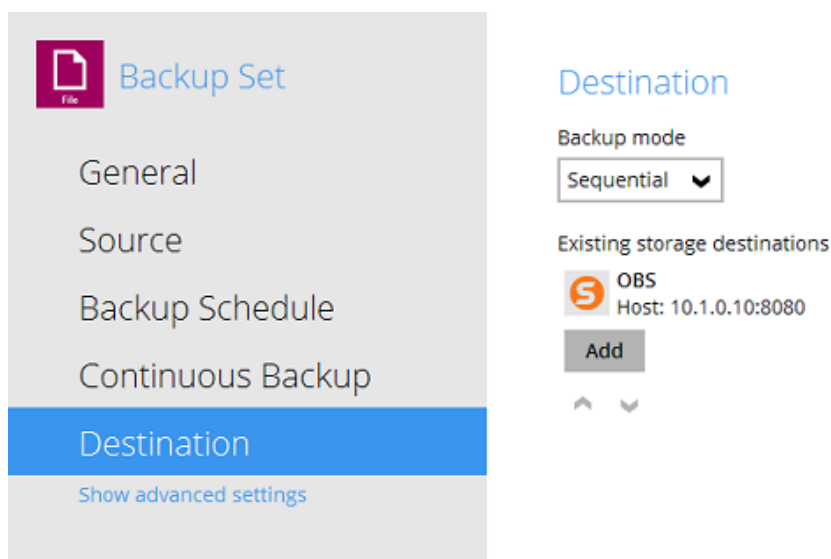

Yes! Multiple backup destinations can be configured in a backup set. Refer to the following steps for configuration details:

How to create multiple backup destinations

1. Login to the AhsayOBM / ACB user interface.

2. Select the 'Backup Sets' tile, then the corresponding backup set

3. Select 'Destination', then click 'Add' to add the additional backup destination.

4. Enter the information requested on screen, and 'OK' when complete.

5. Click 'Add' again to add the next backup destination as required.

6. Continue with the same process until all destinations are added, then click 'Save' at the end when complete.
