

Customization and Branding

With the one-off Rebranding Option fee paid, a partner is able to customize and rebrand the software into their own branding with customized images, wordings, security certificates, and configurations when their AhsayCBS Perpetual License is covered with maintenance, or if Meter License is being used. Below are the Demo / Issues related to Customization and Branding thru your own AhsayCBS web management console.

Demo

Issues

- Cannot upload custom icon files to the AhsayCBS web console for rebranding clients
- Product names (AhsayOBM and AhsayACB) on the client download page of the AhsayCBS console cannot be customized
- Strange characters displayed when installing AhsayOBM / ACB with branded client installer on a Windows computer with Chinese locale
- Cannot upload image file with extension in upper case letters (issue when branding the AhsayCBS web console or client installers)
- CSR generated in AhsayCBS web console is invalid (order of Locality and Country is incorrect)
- aboutBG image trimmed in the Setup Wizard for client installers build in the AhsayCBS console
- Product names (AhsayOBM and AhsayACB) on the client download page of the AhsayCBS console cannot be customized for languages with brackets
- Building customized installers is prohibited by this license (Cannot build custom installer via AhsayCBS)
