

USB / Local Drive / Network Share (Mapped Network Drive)

AhsayCBS, AhsayOBM and AhsayACB supports the use of USB / Local Drive / Network Share (Mapped Network Drive) as backup destination for storing backup data.

Diagram

FAQs

- [How to perform backup to a local destination then import the data to a cloud storage destination](#)
- [How to perform an initial backup to a removable hard drive then import the data onto AhsayCBS](#)
- [How to perform a restore from backup data copied from CBS / mapped drive / removable drive backup storage](#)

Issues

- [Cannot add a network drive as AhsayCBS User Home on Windows platforms](#)
- [Cannot create a backup account on network shared user home \(mapped drive\) on AhsayCBS \(The system cannot find the path specified\)](#)
- [Operating system error 5 \(Access is denied\) \(MS SQL database backup\)](#)
